# SUNDAY SPECIALS TO BE OPERATED

Railroad Officials Are Greatly Concerned Regarding Railway Ties.

## WHAT SUBSTITUTE FOR WOOD

Boston and Maine Railroad Educating Farmers by Sending Out a "Butter Train."

The Norfolk and Western officials announce that their seaside Sunday excursions will begin on April 29th, and will continue throughout the season.

A little emphasis was added to the growing evidence that a substitute for the wood tie must be found by the consideration of dimensions for a standard ite, which were submitted to the American Raliway Engineering and Maintenance of Way Association at its recent meeting. The discussion centered upon the point that a tie seven inches by eight inches by eight feet is too small for the modern high speed track, in particular affording insufficient hearing surface, and that on the other hand, it is larger than necessary for other track, such as spurs and sidings. Again, for localities where the roadbed is soft, as in the South, a tie approaching ten feet in length is required for 'stability. In view of this fact it was considered wise to specify dimensions for three classes of track, and these will be submitted to the association at its meeting in 1807. However, the futility of adopting any set of standards for ties was pointed out by Mr. Baldwin, of the Illinois Central, who admitted that the supply is virtually the governing condition which determines the size of ties. The extent to which that condition can be permitted to govern as of ties. The extent to which that size of ties. The extent to which that condition can be permitted to govern as demands of traffic and high speed in-crease will doubtiess determine the limit of existence of the wood tie. That some substitute must be found has been pointed substitute must be found has been pointed out innumerable times, and many are ilving and working in the hope that they will evolve the ideal equivalent. It may be well to bear in mind that such a substitute must be not only the equal, but the superior of the wood the affording by form, dimension, material and mass, better and more permanent bearing surface for the rails and greater stability in the roadbed.

The fifty-third meeting of the American Society of Mechanical Engineers will be held at Chattanooga, Tenn., beginning on Society of Mechanical Engineers will be held at Chattanooga, Tenn., beginning on May I. Headquarters will be at the Rei House. The programme includes reports from committees on "Standard Proportions for Machine Berews" and on "Pennsylvania Raliroad Tests." Papers will be presented as follows: "Effect of a Blow," by A. W. Moseley and J. L. Bacon; "Low Realstance Thermo Electric Pyrometer and Compensator," by William H. Bristol; "Manganese Steel," by Henry D. Hibbard, "A laistory of the Introduction of a System of Shop Management," by James M. Dodge; "Collapsing Pressures of Bessemer Steel Lap Welded Tubes," by R. T. Stewart: "New Liquid Measuring Apparatus," by George B. Willeox; "Waterwheel Governing," by Mark A. Replogle, George A. Henry, Jr.; "Efficiency Test of Turbine Waterwheels," by William O. Webber; "The Improvement of the Tennessee River and Power Installation of the Chattanooga and Tennessee River and Power Company at Hale's Bar, Tenn., by Thomas E. Murray. There will be excursions to Chickamauga National Park, to Lookou Mountain and to the plant at Hale's Bar described in the last named paper. described in the last named paper,

The Boston and Maine Rallroad has tried an experiment this spring in sending through the State a "butter farming special," similiar in its makeup to similiar trains run by the Western rallroads. The experiment has met with unexpected success, being visited by more than 13,000 persons duting its trip through New Hampshire. The exhibits were furnished largely by the New Hampshire nished largely by the New Hampshire College of Agriculture of Durham, and President W. D. Gibbs, with a corps of assistants from that institution, have

been in charge.

There has lately been such a train run
through the South, in charge of scientific farmers, who lectured on various sub-The plan met with favor here.

A special meeting of the stockholders way Company has been called for April 25, at 11 A. M., in Cleveland, for the purpose of consenting to an increase in the capital of the company from \$10,000 to \$2,000,000.

## ENGLISH POINT OF VIEW.

#### London Statist Estimates Value of C. & O. Railway Securities.

"The London Statist," one of the leading "The London Statist," one of the isensing financial papers of the world, in its issue of April 7th, has a very elaborate and instructive article on the growth and development of the Chesapeake and Ohio Rallroad Company. It says in part: "This progressive company is steadily becoming more prosperous, and its affairs are structured and agriculture has received."

necoming more prosperous, and its affairs morit attention. An agitation has re-cently developed to induce the company to distribute dividends of more than one per cent. The officers of the Chesa-peake and conservative, and desire to im-

## AN APPEAL TO WIVES

Cure the Drinking Husband by Using Orrine-Can be Given Secretly.

No more terrible affliction can com-No more terrible affiliction can come to any home than the craving of husband and father for strong drink. We appeal to wives, mothers and sisters to save the husband and father or the brother or son with Orrine, a scientific and positive cure for the drinking liabit.

The patient simply takes Orrine No. 2 or the secret remedy Orrine No. 1 which is in powder form and as it is perfectly coloriess, tasteless and odorless,

perfectly coloriess, tasteless and odorless, perfectly coloriess, tasteless and outcless, can be given in food or drink without the knowledge of the user. The price of either form is \$1. The craving for strong drink will be destroyed; in fact, the drink will not be missed when Orrine

prove the road out of revenue to the extent necessary to enable the company to pay and to maintain substantial dividends upon the stock. Considering that the company is showing profits equal to a return upon the stock of about 7 per cent., and that its profit earning capacity is probably equal to 8½ per cent., a greater distribution than 1 per cent, seems likely to be made in the not distant future. It will be avident that the present price has not heen brought about by the dividend actually distributed, but by the possibility that sooner or later the company will be able to pay dividends of 3 per cent. or 4 per cent., and the the company will be able to pay dividends of 3 per cent or 4 per cent, and the present price appears to be fully warranted. The security of the bonds has very greatly improved in recent years, and for the current year only about 50 per cent. of the net income will be needed to meet fixed charges, and the bonds can be bought to give yields of \$\frac{1}{2}\$ 1-4 per cent."

#### Leaf Tobacco Market

The cool wave came along and cut the de-diveries of leaf tobacco a little short, and in consequence the breaks yesterday were not altogether as large as the warehousemen had figured on. Every warehouse had enough to-because of the large warehouse had enough to-because of all large had. The total safety had. The total safety amounted to ahout 55,000 pounds. Stonewals warehouse scored the high price of the dally, getting 135 per hundred for a nice lot of sun-cured wrappers.

gatting \$25 per hundred for a nice to of suncured wrappers.

The probability is that the breaks will be
somewhat larger to-day. The sales will begin

AUCTION SALES, Future Days

## PUBLIC AUCTION SALE OF A Grand Manufacturing Site

River Front, Railroad and

Water Power Convenient 250 feet front on James river, with depth of 176 feet, 16 the C. & O Railroad.

THURSDAY, APRIL 19TH, 1906, 5:30 P. M.

This desirable manufacturing site begins about 587 feet west of the Tredegar Works nod runs westwardly to the Abemarie Paper Mills and is bounded on the north by the C. and O. Railroad.

This is an exceptionally desirable manufacturing water power. There being few or no unimproved water sites in the city limits this commends this locality as an investment. Having a water fall of 41 feet from the Canal, which is used exclusively for furalshing water power to factories, etc., this, together with railroad switch at the very door, a graded street for hauling to the soveral depots on level grade, which are distant as follows: C. & O. and R. & A. 4,000 feet; R. F. & P. and N. & W., 3500 feet; R. E. & D., 6,000 feet; City Hall and Post-Office, 5,000 feet; This property is not subject to overflow. It is probable that arrangements for water power can be made with the C. & O. Railroad Company, and, as one cube foot of water at this point will develop about four horse-power (about threa time the usual amount), it is evident that this lot has great value for manufacturing sites. Plat at auctioneer's office.

Torms—One-fourth cash, balance one

Torms-One-fourth cash, balance one two and three years, 6 per cent. Interest secured by trust deed.

By A. L. Adamson, Real Estate Auctioneer, Manchester, Va. COMMISSIONER'S AUCTION SALE

Very Valuable Tract of Timber and Farm Land, containing 411 Acres, in Chesterfield County, Va.

By virtue of certain decrees of the Circuit Court of Chesterfield, entered in the suit of W. J. Young vs. D. S. Young et als., I will sell at public auction, in front of the court-house in the city of Manchester, subject to the order of the court, on

SATURDAY, 21ST DAY OF APRIL, 1906, AT 12 o'CLOCK, NOON.

SATURDAY, 21ST DAY OF APRIL, 1906,
AT 12 o'CLOCK, NOON.

that valuable tract of land of which
Sarah F. Young died selzed, containing
fill acres, more or less, lying between
Robous Station, on the Southern Raliroad, and James river, about 11 miles
from Richmond; about 60 acres of open
land, the balance being in very valuable
timber and wood, which has been estimated at several million feet and several
thousand cords of wood. There is a sixroomed dwelling, quarters, barn, stable,
orchard, fencing, etc., on the property.
Parties interested are requested to examine the premises for themselves before
day of sale. The auctioneer will show
plat and give full particulars. This timber is exceptionably valuable on account
of its quality, size and nearness to raliroad, in fact, it runs up to within threequarters of a mile of the depot,
Terms-One-third cash and the balance
on a credit of one and two years with
interest. No timber or wood to be cut
till two-thirds of the purchase money is
paid.

J. M. GREGORY,
Special Commissioner.
